

QWizardPage

```
classDiagram
    class QWizardPage
    class GpgFrontend_UI_ConclusionPage["GpgFrontend::UI::ConclusionPage"]
    GpgFrontend_UI_ConclusionPage --|> QWizardPage
```

The diagram shows a class hierarchy. At the top is the class 'QWizardPage', represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with an open triangular head points from the bottom of the 'GpgFrontend::UI::ConclusionPage' class to the bottom of the 'QWizardPage' class, indicating inheritance.
